

Magistra sam poljoprivrede ,a prvi stručni rad u vezan za kinologiju mi je bio diplomski rad pod nazivom "Morfološke karakteristike zubala njemačkih ptičara" 1990 godine. Kao mladi znanstvenik radim na Zborniku " Ovisnost fizioloških karakteristika (osobina) osjetila njuha pasmine Slovački kopov o biološkim supstratima u određenom staništu te o drugim unutarnjim i vanjskim faktorima " 1992 godine .

Sudjelujem na 1.internacionalnom simpoziju "Scientific studies of hunting cynology" održanim od 03.12.1992 do 05.12.1992 u Osijeku. Bila sam vanjski suradnik na Poljoprivrednom fakultetu u Osijeku gdje sam držala predavanja iz kinologije. Držala sam predavanja lovcima u lovačkim društvima iz područja kinologije. Kinološki sudac sam od 1992 godine.

Prva crna pudla je došla u moj dom 1975 g. iz Njemačke, a 1979 kupujem apricot pudlu , od 1989 godine imam samo bijele pudle . Od 1980 godine sama šišam i izlažem pudle .Imam uzgajivačnicu bijelih patuljastih pudli Sandy-poodle koje izlažem , a sve bijele pudle koje su bile i jesu u mom vlasništvu su šampioni nekoliko zemalja . Imam bogato iskustvo u izlaganju i suđenju pasa.

I have a master's degree in agronomy, and my first professional work in cynology was my graduation assignment called „Morphological denture characteristics of German pointers“ in 1990.

As a young scientist I worked on a collection called „Dependence of physical characteristics (attributes) of sense of smell of the dog breed Slovakian hound on biologic substrates in specific habitat and other internal and external factors“ in 1992.

I participated in the first international symposium „Scientific studies of hunting cynology“, that took place December 3rd - 5th, 1992 in Osijek.

As an external associate at the Agricultural Faculty in Osijek, section General and hunting cynology, I gave lectures in cynology.

I gave lectures to hunters in hunting clubs and groups on part of cynology.

I am cynology judge since 1992. The first black poodle came to my house from Germany in 1975, and in 1979 I bought an apricot poodle. From 1989 to this day I have only had white poodles.

Since 1980 I have been grooming and exhibiting poodles. I have my breed of white dwarf poodles called Sandy-poodle, a wide knowledge in exhibition of poodles and lots of international titles and awards. I have been a judge and exhibited in many countries, and I have a rich exhibiting and judging experience.
