

LJILJANA BEDRICA

Od 1974. godine član sam Hrvatskog kinološkog saveza, Kluba ptičara i španijela, kad sam dobila svoju prvu englesku koker španijelku. Od onda, pa do sada nisam promijenila pasminu. Moja prva kokerica je bila glavni povod zašto sam upisala Veterinarski fakultet.

Nakon dugo godina uzgajanja engleskih kokera odlučila sam postati sudac za cijelu 8. grupu. Slučajno je u moju kuću ušla hrvatska ovčarka, koja je potpuno promijenila moje mišljenje o toj pasmini, tako da sam se zainteresirala za sve naše hrvatske pasmine i konačno položila ispit za ocjenjivanje naših autohtonih pasmina.

In 1974 I joined the Croatian Kennel Club, the Club of pointers and spaniels, when I got my first English Cocker Spaniel. Since then, however, I have not changed the breed. First Cocker was the main reason why I studied on the Faculty of Veterinary Medicine.

After many years of breeding of English cocker I decided to become a judge for the entire group. By chance one Croatian Shepherd came to my house, which has completely changed my opinion about the breed. I became interested in all of our Croatian breeds and finally passed the judging exam for all of our native breeds.
